16. Self-Monitoring:

A variety of monitoring activities shall be performed by the Salton City Solid Waste Site operator. The various monitoring activities are included in permits and the environmental review documents for the landfills.

- The LEA, under this permit, will enforce only those Mitigation Measures that the LEA has the authority to enforce under the Public Resources Code, Title 27 California Code of Regulations and applicable regulations.
- Operator to perform quarterly landfill gas monitoring of the landfill perimeter and any on-site structures and to submit monitoring reports to the LEA within 15 days following monitoring activities.
- The LEA will be responsible to monitor only those items that it has the authority to enforce.
- Operator is subject to Imperial County Air Pollution Control Districts Air Monitoring requirements.

17. LEA Conditions:

- The operator shall comply with State Minimum Standards for solid waste handling and disposal as specified in Title 27, California Code of Regulations (CCR). The operator shall not operate this facility without possession of all required permits/regulatory approvals. The operator shall inspect the site at a frequency sufficient to ensure compliance with all applicable standards/conditions/mitigations/regulations as are applicable to this facility.
- The operator shall comply with all applicable federal, state, and local requirements and enactments including all mitigation and monitoring measures and all administrative/enforcement orders of all regulatory agencies with jurisdiction at this facility.
- The operator shall maintain a complete copy of this SWFP, Joint Technical Documents and all LEA/CIWMB regulatory inspection reports and enforcement actions at the Imperial County Department of Public Works Headquarters. Such reports to be readily available to facility personnel, LEA staff and other appropriate regulatory personnel.
- Additional information concerning the design/operation of the facility shall be furnished upon request to the LEA and other regulatory personnel.

SOLID WASTE FACILITY PERMIT

Facility/Permit Number :

13-AA-0011**1. LEA Conditions Con't:**

- e. The operator shall notify the LEA in writing of any proposed change in the routine facility operation or changes in facility design during the planning stages. In no case shall the operator undertake any significant changes unless the operator first submits to the LEA a notice of said changes at least 150 days before said changes are undertaken. Any significant changes as determined by the LEA would require a revision of this permit.
- f. The LEA reserves the right to suspend and/or modify the terms and conditions applicable at this facility when deemed necessary due to any emergency, potential health hazard, and/or public nuisance.
- g. A log of special occurrences shall be maintained. The log shall contain but not limited to: fire, explosion, discharges, significant incidents of personnel injury, seismic events, accidents, and/or property damage. The log shall be maintained on the premises. Days without incidents shall be noted in the log with an appropriate negative entry.
- h. Personnel on-site shall have immediate access to radio and/or telephone access to a 911 emergency dispatcher via telephone maintained at the main office.
- i. Upon successful demonstration, the LEA may grant approval for use of Alternative Daily Cover such as green waste, if a sufficient amount is available to provide adequate cover. These standards are subject to regulatory change and may be amended in the future.
- j. The terms and conditions of this permit may change as a result of revision of applicable statutes or regulations.
- k. This permit does not release the operator from its responsibility under any other existing laws, ordinances, regulations, or statutes of other governmental agencies.
- l. The current RDSI or as it may be amended is a part of this permit.
- m. The operator shall maintain a record of the number of waste delivery vehicles entering the facility and submit to the LEA monthly within 15 days of the following month.
- n. Operator shall compile daily tonnage received and submit to the LEA monthly following issuance of this permit commencing with the 15th of the month covering the preceding month.
- o. The Operator upon proper application for an RDSI amendment and subsequent LEA approval may alternate days of operation while remaining within two operating days per week.
- p. Upon the commencement of the Limited Volume Transfer Operation, the Operator will tip municipal solid waste at a minimum of once per quarter in the working face of the landfill. The Limited Volume Transfer Operation will not be regulated by the conditions set forth in this permit and therefore, will be issued a separate solid waste facility permit.
